The landscape is incredibly diverse with a mix that is not found anywhere else on the northern safari circuit; it is dotted with ancient baobab trees & large termite mounds & the Tarangire River is the only source of water during the dry season when the harsh sun suck the moisture from the landscape, baking the earth a dusty red while during the wet season you will experience dense bush & luscious high grasses. Famous for its large elephant population, it is also home to zebra, wildebeest, giraffe, waterbuck, baboons, & impala. Predators include lion, cheetah & leopard. The swamps are shared by flocks of birds; green wood hoopoes, lovebirds, tallish herons, white bellied go-away birds & giant kingfishers. On drier ground you will find the kori bustard & the heaviest of the flying birds; the ostrich. Meal Plan: Full Board Accommodation: Country Lodge Karatu
