- **Day 7: Trek To Mandara Hut.**

Marangu Gate (1860m) – Mandara hut (2715m) Hiking time: 5h Distance: Approximately 8.1 km Habitat: Montane forest The journey passes through the village of Marangu, which is located on the lower slopes of the mountain. Once you reach the park gate, all hikers are requested to sign in at the Park office and make their final preparations for the climb. Porters will be seen arranging and loading their packs, containing the food, water, cooking gas as well as most of your equipment. Make sure that you have all your daypack items (containing at least drinking water, your lunch pack and extra clothing) with you, as the porters ascend a lot quicker than the hikers. Our guides will be available to assist with any additional information or needs you might have. You now leave the Park gate and ascend on a cleared ridge trail through the rain forest. The forest, suffused with mist and dripping with beards of moss, is also where most of Kilimanjaro's animals are found.

- **Day 8: Trip To Arusha National Park**

It is a popular destination for day trip visitors who are about to embark from the town of Arusha on longer northern circuit safaris. The small national park includes the slopes, summit, and ash cone of Mt. Meru, the Momela Lakes, Ngurdoto Crater, and the lush highland forests that blanket its lower slopes. Game viewing around the Momela Lakes is at a laid-back and quiet pace, and while passing through the forest many visitors stop to search for troupes of rare colubus monkeys playing in the canopy.

- **Day 9: Trip to Materuni Water Falls and Coffee Tour**

Nestled in the patchwork foothills of magnificent Kilimanjaro lies the beautiful village of Materuni, home to our Chagga friends and famous for its aromatic, rich coffee. On this fragrant and fun day out you'll get a chance to make your own cup of coffee the proper way and you'll find out the secret to the perfect cup of coffee from the local Chagga people. Next you'll hike the short but challenging route to the Materuni Falls and you can stand under the waters as they cascade into a tranquillity pool that's safe for bathing. And you'll want to jump straight in – after getting sweaty (ok, glowing!) from your hike, there's nothing more soothing than floating in the cool waters. Enjoy your packed lunch before or after your swim – there are no rules!

- **Day 10: Maasai Cultural Tour.**

et more information about the culinary culture of the Maasai while tasting a traditional tea (chai) prepared on the wood fire. A tasty lunch with a variety of local food highlights will end the activities inside the village. The afternoon starts with an exciting & very educational walking safari across the nearby bush. Maasai warriors will guide you along their paths and explain you typical medicinal plants, extraordinary trees, tracks and the local wildlife. In addition to that, the usage of local tools, hunting techniques and fire preparation is a part your unforgettable bush excursion. Coming back to the village, the well-deserved break is accompanied by freshly brewed coffee & cake. During the sunset a group of Maasai men and woman gathering around for the traditional singing &

dancing performances. This will be the end of tour. You will be transferred to airport to catch your flight back home.
