- **Tour Highlights:**

Get to see the Big 5 i.e Elephant,Rhino,Buffalo,Lion & Leopard

Get to visit the world heritage Ngorongoro Crater

Professional safari guide

Great scenery

- **Tour Introduction:**

Our 3 Day rafiki safari takes you to Lake Manyara, the world heritage Ngorongoro Crater & Tarangire National Park. It is designed to offer visitors with a time constraint, a short but a very intense Tanzanian wildlife safari experience. You will experience the excitement of an African wildlife safari, or even a photographic safari in three of the most spectacular national game parks in Tanzania.

- **Itinerary:**

- **Day 1: Tarangire National Park**

You will be picked up at the hotel and then head to the Tarangire National Park. Giant baobab trees, bush savannah and the seasonal marshes add to the wonder of this nature reserve. The Tarangire National Park is considered as one of the best places to view elephants up close. The park is also home to buffaloes, zebras and wildebeests which are always closely followed by a range of predators such as lions. Leopards are seen now and then but cheetahs are rarely spotted. From the open roof of the safari vehicle you will be able to absorb the landscape and watch the animals. In the late afternoon you will leave the park and drive to the lodge for dinner & overnight.

- **Day 2: Ngorongoro Crater**

On this day we head to the Ngorongoro Crater and then we descend over 600 meters into the crater to view wildlife for a half day's safari tour. Supported by a year round water supply and fodder, the Ngorongoro National Park supports a vast variety of animals, which include herds of wildebeest, zebra, buffalo, eland, warthog, hippo, and giant African elephants. Another big draw card to this picturesque national park is its dense population of predators, which include lions, hyenas, jackals, cheetahs and the ever-elusive leopard, which sometimes requires a trained eye to spot. We will visit Lake Magadi, a large but shallow alkaline lake in the southwestern corner, which is one of the

main features of the crater. A large number of flamingos, hippos and other water birds can usually be seen here. In the evening we will start ascending from the crater and head to the lodge for overnight.

◦ **Day 3: Lake Manyara National Park**

After breakfast, we head to Lake Manyara National Park. The park is dominated by the lake of the same name, which attracts large colonies of waterbirds. Particularly impressive are the pink-colored flamingos, but also many other bird species such as cormorants, pelicans or storks can be observed here. A total of about 400 different bird species live in the park. The park is also famous for its tree climbing lions, which are usually found in the central and open part of the park. During the safari you will also see elephants, zebras, giraffes, buffaloes, hippos and many other animal species. In the late afternoon you leave the national park.

- **Other Excluded:**

## Covid Safety

All guides have been vaccinated

Sanitizer used during trips

## **Tour Cancellation Policy**

Free cancellation up to 7 day(s) prior departure, Or traveler will pay 50 % of the tour amount

## **Good To Know**

The name Tanzania conjures up images of wildebeest stampeding across vast savannah, rain forests teeming with monkeys and birdlife, and great plains brimming with legions of game. All of these natural wonders and more are on offer in this exceptionally diverse African nation. Visitors typically visit Tanzania to partake in at least one of the four well known Tanzanian tourist experiences: a relaxing seaside vacation on the picturesque island paradise of Zanzibar, an underwater tour of some of the world's most renowned dive sites around the gorgeous Spice Islands, a safari adventure in some of Africa's most impressive game reserves, or a hiking excursion around Mount Kilimanjaro National Park. Whichever of these incredible holidays you choose, you will undoubtedly be welcomed by some fabulously friendly and peaceful inhabitants who, despite being divided into 120 different ethnic groups and cultures, live in harmony with one another and provide some of the most wonderfully exotic local cuisine you could imagine. With all of this diversity on offer, the most difficult part of your Tanzanian holiday experience is likely to be deciding where to go!

## **FAQs**

If you are visiting a number of parks and reserves in Tanzania, you can either drive or fly between them. Roads in most of the wilderness areas are in poor condition and unmarked, and self-driving is not recommended. Operators will supply you with a driver who doubles as an informal guide; alternatively, you can arrange to fly to your destination and utilize a car and driver supplied by the lodgings.
