- **Tour Introduction:**

Located on an island off the coast of Mumbai, the Elephanta Caves are rock-cut temples, some dating back to the second century BC. Learn about the legendary Buddhist and Hindu UNESCO-World Heritage Site—known as the “City of Caves”—during this guided tour, which covers the main temples dedicated to Shiva as well as smaller, off-the-beaten-track shrines. And because it’s a private tour, enjoy plenty of personal attention. The ferry and admission to the caves are at own expense and there is an option to include a family lunch.
