To:6:00 AM

- **Age Range:** 18 - 65 (Years Old)
- **Tour Highlights:**

Serengeti Seasonal Great Migration, Crater eden Garden for Wildlife and Tarangire National Park is World Elephant Century!

- **Tour Introduction:**

After breakfast you are met by our professional tour guide/driver, who will deliver a short safari info briefing, after which we travel east to the Tarangire National Park. The park runs along the line of the Tarangire River and is mainly made up of low-lying hills on the Great Rift Valley floor. Its natural vegetation mainly consists of Acacia woodland and giant African Baobab trees, with huge swamp areas in the south. Both the river and the swamps act like a magnet for wild animals, during Tanzania's dry season. The Tarangire National Park is reputed to contain some of the largest elephant herds in Africa. We will enjoy a picnic lunch inside the park and do two exciting morning and afternoon game drives, along the Tarangire River. Late afternoon we depart for Arusha where we will end our safari adventure. You will be taken to your hotel, which ends our tour packages services. The Ngorongoro Conservation Area as a whole has much to offer but the jewel in its crown is, without a doubt, the eponymous crater – an area of 265 sq km, which is 610 meters deep and 19 km across. The rim of the crater is an astounding 2286 meters above sea level. The floor contains a small soda lake, called Lake Magadi and it is estimated that 30 000 animals are living in the crater, making it the most intensive safari game viewing area on earth! It was therefore very fittingly declared a World Heritage Site in 1978. A visit to Tanzania is simply incomplete without a safari visit to the park.

- **Itinerary:**

- Day 1: **Nerengeti National Park**

After breakfast, you will travel via the cooler highlands towards the southern Serengeti and at midday you will reach the plains of the Serengeti National Park. This park is the largest in Tanzania and has a diversity of habitats and landscapes – short grass plains, savannah, thick bush, swamps and lakes. Bizarre rock formations called kopjes dot the grassy landscape where predators are often seen. The Serengeti is famous for the annual migration when hundreds of thousands of wildebeests and zebras trek to find fresh grass

and water. You will spend the night at Tukaone Serengeti Tented Camp.

◦ Day 2: **Ngorongoro Crater tour**

This morning you will continue with further game drives in the Serengeti, at noon you will leave for Ngorongoro Conservation Area. On your outward journey to the park gate, you will enjoy some more game viewing before you leave the Serengeti National Park in the early afternoon to continue your journey to the Ngorongoro Conservation Area. As soon as you reach the edge of the Ngorongoro Crater, you will see the giant caldera below – a breath-taking view. You will spend the night at Crater Rim View Inn. Dinner and overnight at Crater Rim View

◦ Day 3: **Tarangire National Park-Arusha**

After a safari briefing in the morning, you head to the Tarangire National Park. Giant baobab trees, bush savannah and the seasonal marshes add to the wonder of this nature reserve. The park is considered as one of the best places to view elephants up close. The park is also home to buffaloes, zebras and wildebeests which are always closely followed by a range of predators such as lions. Leopards are seen now and then but cheetahs are rarely spotted. From the open roof of the safari jeep, you will be able to absorb the landscape and watch the animals. In the late afternoon you will leave the park and drive back to Arusha/Moshi

## WHAT'S INCLUDED

Location	Nights	Type	Property Name	Rating	Occupancy
serengeti		Camping	tukaone	3 Star	Private

• **Pickup & Drop-Off**

• **Guide**
