- **Tour Introduction:**

This safari includes the most popular parks in the Northern Circuit. View the animals and fantastic landscapes in a 4x4 safari vehicle with open rooftops for you to get the ultimate safari experience. This is a small group safari with a maximum of 6 travelers per vehicle, all with window seats. The safari lasts 7 days and includes meals, accommodation, park fees, and visits to Lake Manyara, Serengeti, Ngorongoro Crater, and Tarangire National Park.

- **Itinerary:**

◦ Day 1: **Arrival**

Arrival at Kilimanjaro airport. We will meet you at the airport and drive you to Springlands hotel in Moshi for overnight stay.

◦ Day 2: **Tarangire**

After breakfast we drive to Tarangire, a spectacular park during the dry season. This park is spectacular during the dry season, when many migratory wildlife species return to the permanent waters of the Tarangire river. Huge herds of wildebeest, zebra, elephant, eland and oryx gather to stay in Tarangire until the rains begin when they migrate back to good grazing areas. Overnight at the hotel in Karatu.

◦ Day 3: **Serengeti**

The drive to Serengeti National Park via Olduvai Gorge (an optional 15-minute stop) takes 3 to 4 hours. Olduvai Gorge is an archaeological site located in the eastern plains of the Serengeti, where the first human fossils were first discovered for the first time. It has an amazing landscape that is the result of the same tectonic forces that created the Great Rift Valley millions of years ago. You will spend the night in a luxury camp or lodge in the heart of the Serengeti.

◦ Day 4: **The Ngorongoro Crater, wonder of the world**

After breakfast, drive to the Ngorongoro Crater for a game drive inside the crater. Safari inside the crater. This is the best place in Tanzania to see black rhinos and proud lions. As well as proud lions. There are many colorful flamingos and a variety of water birds. Other animals you can see are leopard, cheetah, hyena, and other animals, Hyena, other members of the antelope family and small mammals. At the end of the day, you will drive to your luxury camp next to Ngorongoro for the night.

◦ Day 5: **Depart camp after a delicious breakfast for Lake Manyara, near the Rift Valley.**

A variety of ecosystems including acacia forests, grassy plains, a swampy delta and of course the vast lake. This diversity attracts a wide variety of mammals, birds and wildlife. Lake Manyara is also home to rare tree-climbing lions. The park offers excellent game viewing opportunities: buffalo, impala, giraffe, warthogs, hippos and many elephants roam around the lake. You will also see several monkey areas. Return to the hotel in Moshi.

◦ Day 6: **Airport**

Transfer to Kilimanjaro airport. (possibility to extend by a stay in Zanzibar or day trips)

- To ensure that all staff are fully trained in and aware of all COVID-19 procedures and are provided with sufficient information in respect of such procedures; to ensure that all training is regularly updated and that retraining is carried out where necessary
- To liaise with any external body, including Government departments or ministries as necessary, in respect of their requirements
- 1. To ensure that all notices as required by the Tanzanian Government are correctly displayed in the necessary places, in particular with contact details of the Ministry of Natural Resources and Tourism, the MoHCDGEC & PORALG

Guests' Medical Declaration Form:

All guests will be required by Tanzania Wildlife Adventures to complete a compulsory Medical Declaration Form. A form must be completed for each individual guest and this will be sent to each guest by our Health and Safety Department, one month prior to the guest's arrival in Tanzania. The form will be completed and signed and will include the following information for each guest:

- Name, nationality and ID or passport number
- Proof of travel insurance, with policy number and details of insurer (including contact details)
- Name and contact details of next of kin or friend who is not travelling with you to Tanzania
- Details of guest's travel history (other than the current trip) within the month prior to arrival in Tanzania
- Details of current trip (prior to start of Tanzania Wildlife Adventures trip and any subsequent destinations) for the purposes of track and tracing, should it become necessary
- Description of guest's general health, including any current medication, and any chronic or other medical conditions
- Description of guest's general fitness level, including 'smoker status' past and present
- Details of any physical disability or restrictions
- Any symptoms, either indicative of COVID-19 or other condition, in the 30 days prior to arrival in Tanzania
- Any history of COVID-19, or its symptoms, at any time prior to current trip
- A sign-off by the guest in respect of their COVID-19 disclosure

Temperature Monitoring of Guests and Staff:

Temperatures of all guests will be taken on arrival, at the start of their Tanzania Wildlife Adventures trip. (Depending on the method and place of arrival, this might

be at the airport, or hotel, or other appropriate location.) Temperatures of guests will then be taken each day after breakfast, for the duration of the guest's stay, by the driver-guide. On each occasion, a non-contact thermometer will be used and the temperature will be recorded. Any temperature of 37.5 C or above requires action. For staff, temperatures will be taken each time they begin a shift or finish a shift: a non-contact thermometer will be used and all temperatures will be recorded.

In the event that a guest or staff member registers a temperature of 37.5 C or above, the procedures described in section 9, below, must be followed immediately.
