- **Tour Highlights:**

The Rongai route (6, 7 or 8 days) is the quietest Due to its northern position, the Rongai route happens to be an uncrowded road of extreme beauty.

- **Tour Introduction:**

The Rongai route (6, 7 or 8 days) is the quietest Due to its northern position, the Rongai route happens to be an uncrowded road of extreme beauty.

- **Itinerary:**

- Day 1: **reception at the airport and transfer to Moshi**

We will meet you at Kilimanjaro International Airport before transferring you to the Springlands Hotel in Moshi, an hour's drive from the airport.

- Day 2: **Moshi – first cave camp (2,830m)**

Our ascent begins at Nale Moru, a charming village with wooden houses. We will cross a path that will lead us to a pine forest that is home to many animals. Once out of this forest, we will arrive at the first cave camp which overlooks the plains of Kenya.

- Day 3: **first cave camp (2,830m) – second cave camp (3,450m)**

In the morning, we will walk in the middle of lush vegetation with a view of Mount Kibo and the glaciers that surround the Mawenzi crater. The second cave camp has the particularity of being located in a valley near the kikelewa caves.

- Day 4: **second cave camp (3,450 m) – Mawenzi Tarn camp (3,952 m)**

After breakfast, we will venture into the verdant sloping paths of Mount Kibo. We will then begin to acclimatize to the high altitude. At the end of the morning, we will pass through a much more arid environment as we approach the Mawenzi turn camp.

- Day 5: **Mawenzi Tarn camp acclimatization day (3,952 m)**

We will take advantage of this day to do an acclimatization hike.

◦ Day 6: **Mawenzi Tarn camp (3,952 m) – Kibo Huts (4,750 m)**

We cross the moor and the high desert plateau. The temperature will drop gradually. Once arrived at the Kibo camp, we will have to prepare our equipment for the final ascent which takes place the next day. See you at midnight.

◦ Day 7: **Kibo Huts (4,750m) – Kilimanjaro summit (5,895m) – Horombo Huts (3,110m)**

The first part of the final ascent consists of reaching Guillman's point (5712 m). We get there when the first light of day appears. The view from the edge of the crater is sumptuous. From there, it will take us 2 hours of walking to reach Uhuru Peak. After savoring this moment at the top, descend to Horombo Hut for dinner via Kibo Hut where we will have lunch and rest.

◦ Day 8: **Horombo Huts (3,110m) – Marangu Gate (1,980m) – Moshi**

We will begin our descent to the Marangu Gate. After a good lunch, you will receive your certificate of ascent which will reward your achievement! Then head to the Stella maris lodge (or similar) for a good night's sleep.

◦ Day 9: **Moshi / airport**

After breakfast at the Stella maris lodge hotel (or similar) we will organize your transfer to the airport according to your flight schedule.

 - To ensure adequacy of stocks of all PPE materials for guests and staff at all times for each company location and vehicle in which the company operates
 - To ensure that all guests are fully aware of all COVID-19 procedures and are provided with sufficient information in respect of such procedures
 - To ensure that all staff are fully trained in and aware of all COVID-19 procedures and are provided with sufficient information in respect of such procedures; to ensure that all training is regularly updated and that retraining is carried out where necessary
 - To liaise with any external body, including Government departments or ministries as necessary, in respect of their requirements
1. To ensure that all notices as required by the Tanzanian Government are correctly displayed in the necessary places, in particular with contact details of the Ministry of Natural Resources and Tourism, the MoHCDGEC & PORALG

Guests' Medical Declaration Form:

All guests will be required by Tanzania Wildlife Adventures to complete a compulsory Medical Declaration Form. A form must be completed for each individual guest and this will be sent to each guest by our Health and Safety Department, one month prior to the guest's arrival in Tanzania. The form will be completed and signed and will include the following information for each guest:

- Name, nationality and ID or passport number
- Proof of travel insurance, with policy number and details of insurer (including contact details)
- Name and contact details of next of kin or friend who is not travelling with

you to Tanzania

- Details of guest's travel history (other than the current trip) within the month prior to arrival in Tanzania
- Details of current trip (prior to start of Kilime Adventures trip and any subsequent destinations) for the purposes of track and tracing, should it become necessary
- Description of guest's general health, including any current medication, and any chronic or other medical conditions
- Description of guest's general fitness level, including 'smoker status' past and present
- Details of any physical disability or restrictions
- Any symptoms, either indicative of COVID-19 or other condition, in the 30 days prior to arrival in Tanzania
- Any history of COVID-19, or its symptoms, at any time prior to current trip
- A sign-off by the guest in respect of their COVID-19 disclosure

Temperature Monitoring of Guests and Staff:

Temperatures of all guests will be taken on arrival, at the start of their Tanzania Wildlife Adventures . (Depending on the method and place of arrival, this might be at the airport, or hotel, or other appropriate location.) Temperatures of guests will then be taken each day after breakfast, for the duration of the guest's stay, by the driver-guide. On each occasion, a non-contact thermometer will be used and the temperature will be recorded. Any temperature of 37.5 C or above requires action. For staff, temperatures will be taken each time they begin a shift or finish a shift: a non-contact thermometer will be used and all temperatures will be recorded.

In the event that a guest or staff member registers a temperature of 37.5 C or above, the procedures described in section 9, below, must be followed immediately.

Staff Training:

Tanzania Wildlife Adventures is committed to providing comprehensive training for its entire staff in respect of COVID-19, its effects and the measures necessary to detect it prevent its spread and deal with it whenever it arises. Tanzania Wildlife Adventures is also committed to provide further training, as and when necessary, as the COVID-19 situation develops and evolves. Additional, specific training may be required for certain staff depending on the type of work they perform or the locations in which they work, but the following general areas of COVID-19 training are appropriate to all Tanzania Wildlife Adventures staff:
